

THE SYLVANS CLUB

"KNOTHOLE"

Volume II Number 2 October 5, 1969

The next regularly scheduled meeting of the Sylvans club will be next Monday, October 6th, in the Tejas room of the University Center. The dues are \$3.00 per semester or \$5.00 per year, if paid now. Club patches can be purchased for 80¢ and decals are on sale for 25¢ - be sure to pick yours up soon. A program is scheduled immediately following the Oct. 6th meeting and everyone is urged to attend this important and informative meeting.

The Sylvans Club Cabin is open to any Sylvan member and his (or her) guest at any time. Keys to the gate may be obtained from Brian Avery, room 143, Unit 3; Malcom McKee, Weisley 312; Bill Sandeen, room 82, Unit 2; or Mike Bintliff, room 4, Unit 1. The only requirements are that you do not use firearms and that you keep the place clean.

Recently I received a note concerning future publication of the Knothole, with no name, only three initials and a room number at the Varsity. While making a mailing list for the Knothole I found that there was no Forestry major with those initials. This aroused my curiosity and I checked the room at the Varsity. There is no such room at the Varsity. Since the letter was apparently written by a fictitious person I see no reason to publish it or answer it. If someone cares to write an article for publication in the Knothole please sign your name. Larry Behrens.

The S.F.A. Soccer team is now organizing and needs players. You do not have to know how to play soccer to join as someone will help you learn. Practice is every Monday and Wednesday at 6:30 PM and Saturday afternoons, behind the football field.

The Soccer team desperately needs players as the number of games to play goes up and the number of players remains low. For more information call Danilo Escoto or Ruperto Osorio at the University House, 564-1377.

I am very proud of the officers of the Sylvans Club for picking such a capable work project chairman as Ronald Moody. By capable I mean, how many people do you know who can get a chainsaw pinched 8 feet above the ground in a Liquidambar styraciflua tree? I wish Ronnie much luck in the year to come as work project chairman.

Mr. Yee, I hope you are still enjoying the blender that you received last year. I want you to know that the Club buys only first class and first hand material for its Sponsor. You might want to talk to Bill Fansler or Bill Sandeen, however. It seems like somewhere down the line, I think your blender became secondhand.

Lumberjack day is just around the corner and we will have such events as logrolling, axe throwing, knife throwing, crosscut sawing, bow sawing, chainsawing, chainthrowing, and log chopping. Anyone who would like to enter any of these events, but do not know how to perform the event, come to the Sylvans meeting October 6th and someone will be glad to give you all the assistance you want. The Club even owns some of the tools needed for some events. This is a good warmup for Conclave so if you think you would like to go to Virginia with us, now is the time to start planning for it.

Mike Fountain and Larry Behrens are planning a "tea" party at the Sylvans Cabin soon anyone interested contact either Larry or Mike. The more people interested the less the "tea" will cost. We both live at 1008 N. Mound St.
