

THE SYLVANS CLUB

"KNOTHOLE"

Volume II Number 3 October 18, 1969

The Sylvans Club will meet in the Tejas Room of the University Center at 7:30, October 20. The last meeting was held early because it conflicted with Dr. Walker's talk on Alaska, but this week we are back on schedule so everyone be sure to attend. There will be a program to follow that I am sure everyone will enjoy.

Some of you may be shocked to find out that Dr. Verral has submitted his resignation to Dr. Walker, effective at the end of the spring 1970 semester. Dr. Verral said that his reasons are based solely on health considerations, according to Dr. Walker. Since this is the last year for Dr. Wilford as Visiting Professor, he will also be leaving, Dr. Walker said that it is possible that Grant Gaumer will fill in for Dr. Wilford. Those of you that still have Surveying to take might want to know that Mr. Yee is also leaving. Mr. Yee plans to continue his education and earn his Ph.D. It looks like the Sylvans Club will have to shanghai another sponsor for next year.

The Forestry Faculty has agreed upon an idea to cut Summer Camp to one six week endurance camp at Milam and 8 semester hr. credit instead of 12. If the Council of Deans approve the matter, the New Mexico trip will be cut from the required Summer Camp schedule and offered as an elective.

The last issue of the Knothole was printed before news of Mr. Lacy Hunts death was reported. We of the Sylvans Club and of the Knothole staff wish to send our deepest sympathies to Mrs. Hunt. Mr. Hunt was a fine man and contributed much to the field of Forestry. It is a pity such a man is now gone. I hope his spirit is carried

on by every Forester. I know we of the Sylvans Club will never forget him of what he has done for us.

Dr. "Dead Eye" Wiant and Felix "Sure Shot" Revello are still at each other throats, or shall I say pistols. It seems that Sure Shot was going to give Dead Eye some pointers on marksmanship at Milam this summer. It turned out that Dead Eye wasn't dead at all and Sure Shot wasn't very sure. Dead Eye never missed but Sure Shot either forgot how to shoot or was protecting his grade because he missed all the targets. Dead Eye wants to be fair and give Sure Shot a second chance any time a rematch can be scheduled. Dead Eye claims he will keep his back to the target, use a mirror, shoot over his left shoulder and close his left eye. (Don't you think you are going out of your way to be fair, Doc?) Dead Eye contributes his marksmanship to an inheritable quality that every upstanding Virginian possesses. Sure Shot, where do you claim to be from? If it is Texas, we don't claim you anymore, you just got disinherited.

Lumberjack day is the 24th of October, which is the Friday before Homecoming. Every year the Sylvans Club sponsors an exhibition for the student body and this year is no exception. Any Forestry major or minor is encouraged to participate in the exhibition. The events are: crosscut sawing, bow sawing, chain throwing, axe throwing, knife throwing, chain sawing, and log chopping; your name must appear on the list on the Forestry Lab bulletin board by October 20th and every Forestry major is asked to dress like a lumberjack on the 24th.

Lets all dress up and support our team more, they will appreciate it I am sure.

The deadline for Sylvans Club dues is Monday, Oct. 20th. Anyone wishing to join pay at the meeting or before to one of the officers. The dues are \$3.00 per semester or \$5.00 per year.
