

THE SYLVANS CLUB

"KNOTHOLE"

Volume III

Number 7

May 9, 1970

SYLVANS CLUB:

The final meeting for Spring, 1970 of the Sylvans Club was held on Tuesday, May 5. Officers for the Fall semester were elected. They were:

President: Bill Sandeen
Vice President: Pete Skuba
Secretary: Sylvia Albrecht
Treasurer: Robert Murphy
Parliamentarian: Kirk Wynns
Reporter: Ed Shirley

Dr. Wiant was elected to serve as Faculty Advisor.

Officer of the year was Ron Moody.

Sylvan of the year was Larry Behrens.

Attendance at the meeting was sparse.

FORESTRY STUDENT COUNCIL:

The SFA Forestry Student Council has written up a course evaluation sheet to be passed out to forestry students during each forestry class final examination. Students of forestry classes not holding finals should pick up copies of the sheet from Randy Reed - in Forestry Hall. We urge all students to conscientiously fill out these forms. Results will be tabulated by the Council during the summer and made available to the students early next fall.

Also: A Forestry Student Council member will be present at the upcoming Forestry Faculty Meeting. Lets give the FSC all the support we can, as they represent us.

FROM THE FACULTY:

Dr. Hastings says "fellows going to summer camp should be patient with camp management". Come on, guys, give Doc a chance!!

On a serious note, Dr. Burkhart submits the following provocative thought: "If its worth having its worth working for." How many of us fail to consider this principal! Most, I'm sorry to say.

FAREWELL:

Contrary to previous statements, Mr. Yee will not be going back to school (to study) when he leaves us. Instead he will join the faculty of the Humbolt State College School of Natural Resources in California. He will teach Forest Engineering courses including (you guessed it) surveying. He invites any SFA students who pass through that part of California to be sure to look him up and stop by. He says he has enjoyed his 3 years here and has made many friends, both faculty and students. By way of parting comment, he says that the SFA School of Forestry has great potential, but that several problems must be solved before that potential can be realized.

Also leaving our School of Forestry Faculty at the end of this semester is Dr. Arthur Verrall, who is retiring after long and valuable service to the field of Forestry. To both Dr. Verrall and to Mr. Yee we of the Knothole Staff and of the School of Forestry extend our deepest appreciation for a job well done and our very best wishes for the future.

FROM ROBERT MURPHY:

Next semester Dr. Wiant will teach a course in the habits and identification of ground hogs in the Smoky Mountains. Those people who have had Biology 433 will find the course particularly interesting. Robert Murphy

Anyone desiring an explanation of the foregoing contact Robert Murphy.

FROM THE EDITOR:

Well, this wraps it up on Volume III. This issue marks the end of the Knothole for Spring, 1970. Speaking for myself, I'd like to express my sincere thanks to Sylvia Albrecht, Alan Heiskell, Larry Behrens, Pete Skuba, and all the others who aided me in the putting out of this publication. My special thanks go to my roommate - Bill Briggs - for his proofreading and typing, and to Felix Revello, for his many contributed articles. Lastly my thanks go to you - the readers - for your constant support.

Ed Shirley, Editor
